F21 series – entry-level professional projector

The high performance F21 has been designed to meet the requirements for the professional user in boardrooms, collaboration rooms and advanced meeting rooms. With Full HD 1080p resolution and an attractive price point, the F21 is the entry level product for the professional user.

Ease of use

With its outstanding image quality through colour reproduction, sharpness and resolution, the F21 fulfills any requirement for the professional user. Add to that the unique and almost unnoticeable pearl white finish, and it slips into any meeting or collaboration space with ease.

The extended connectivity and superb compatibility enables virtually any kind of source connected without hassles or concerns – it simply works as and when you expect it to.

High Brightness

With brightness up to 3000 ANSI lumens and its accompanying high contrast, the F21 fills most projection screens and board rooms with ease.

Not only does your corporate logo look the way you expect it to, everyone sees it in high definition as well.

And that is the way you want it. Simple, easy and stunningly attractive. The F21 comes standard with the peace of mind that is just works.
