2U Ethernet Switch

Aqeri 96247-01 is a rugged 19" Cisco-based military switch with redundant power supply for use in harsh environments. The unit can be powered with both AC and/or DC. The chassis is fully sealed for protection against dust and corrosive elements. A fully aluminum construction stands for low radiation and high noise immunity. The rugged design gives protection against shocks and vibration. An internal heating and climate control system makes the unit usable in extremely low-temperature environments.
