PRODUCT SPECIFICATIONS

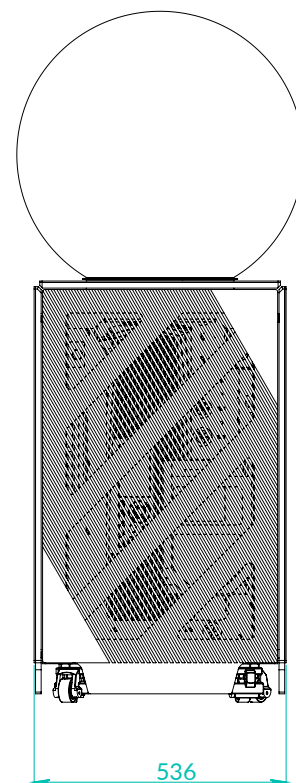

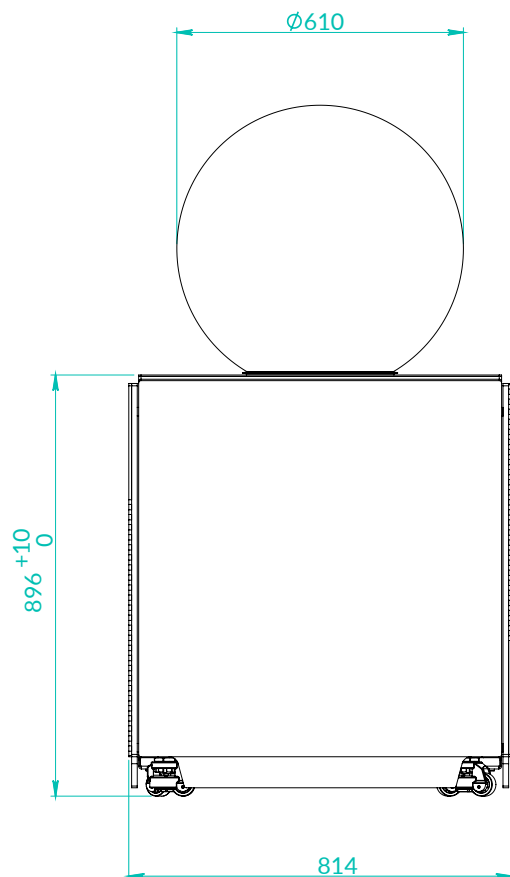

Following the global success of our PufferTouch2+, the most state-of-the-art touch enabled spherical display in the world, the PufferTouch2+ [Mobile](#) is quicker and easier to deploy, and our brightest projection to date.

Punching 12,000 Lumens, an intuitive multi-touch screen and a sleek new lightweight enclosure, this is the first mobile solution of its kind, ensuring your stories are told across multiple locations to multiple audiences; and in the ultra-high definition quality they deserve.

There is no limit to the magnitude of the stories you can tell on our solutions, and now there is no limit to the indoor locations of which you can tell them.

Incorporating wheels, a levelling foot controlled by an adjustment wheel, a brand-new quick lock screen and handles to assist in lifting, the latest in our PufferTouch® range promises to further strengthen our commitment to deeper engagement, potent storytelling and taking communication to new heights... and now, new locations! And all with minimal fuss.
